-

WORK HISTORY

Cyber Warfare Operations - Instructor

Jan 2017 - PRESENT

United States Air Force, Biloxi, MS

- Delivered 1,000+ hours of instruction; awarded Community College of the Air Force (CCAF) Instructor Certification (CIC) - Level 1
- Authored brand-new scripting block that emphasizes the integration of Python scripting and Cybersecurity. Designed and developed study tools, material, labs, and testing devices
- Modernized Windows and Linux curriculum by crafting new hands-on exercises with interactive labs that boosted student test scores and brought the curriculum in-line with current operations

Network Exploitation Analyst

Mar 2013 – Dec 2016

United States Air Force, National Security Agency, Fort Meade, MD

- Maintained integrity of government networks through offensive security at NSA Red Team
 - Conducted onsite network penetration tests from an insider threat perspective
 - Developed JavaScript/PHP/SQL application to help operators visualize network/target data
 - Led a team to develop log parsing scripts in Python to automate a previously manual task
-

EDUCATION

University of Maryland University College
